PLATFORMS SUPPORTED:

IBM AIX • Sun Solaris • Hewlett Packard HP-UX • LINUX • Digital ULTRIX • Microsoft Windows NT (Intel and Alpha) • Microsoft Windows (3.1 Workgroups, 95, 98, 2000, XP) • Novell NetWare • Apple Macintosh • DOS • IBM Open Edition MVS • IBM OS/390 UNIX System Services • IBM OS/2 Warp, Lan Server and Warp Server • SCO UnixWare or OpenServer • NCR UNIX SVR4 • NEC EWS-UX/V • Pyramid Nile • Tandem Guardian • IBM AS/400 • Sequent DYNIX • Siemens Nixdorf SINIX 386/486 • Siemens Nixdorf Reliant UNIX • Silicon Graphics IRIX • SGI HSM • Auspex • Bull DPX/2 300 BOS • Bull DPX/20 • Cray UNICOS • Data General DG/UX • Digital OpenVMS (VAX or Alpha) • Digital UNIX - TRU64 • Fujitsu UXP/V and UXP/M

All Appliances set to default at 45 days on-line, and up to two days of changed data on disk cache. Serves all 35 clients, including network or remote, LAN or WAN, NAS or SAN, file servers and mid-range systems. Number of clients served by STORServer will vary by amount of data. Calculations are based upon 100mbit ethernet, with 2 NIC cards in the STORServer.

Scalable Models:

Each model in the STORServer offerings can double, triple, and sometimes quadruple in size without changing the footprint or swapping out equipment.

3-Year Warranty:

The entire backup appliance is warranted by STORServer for 3 years.

30-day Return Policy:

If the STORServer does not meet your expectations, return for a full refund.

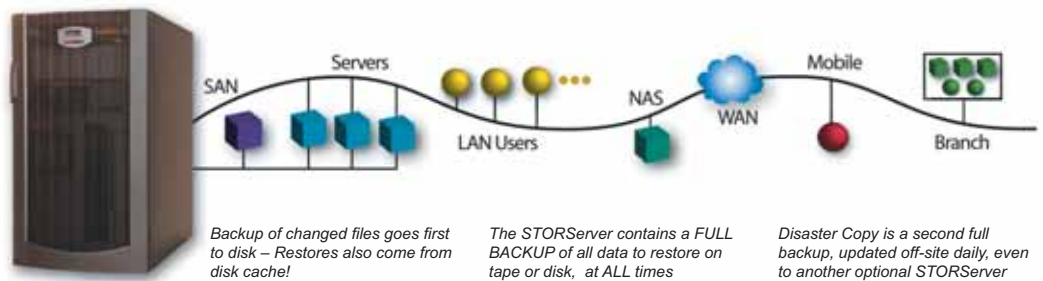

Evaluation/Demonstrations:

Two week eval units, online or on-site demonstrations are available through your reseller.

Financing:

Everything you need for your backup solution is in one price, including service, media, and support - leasing is available.

When you choose STORServer Backup Appliance, you have chosen a turnkey hardware/software plug and play storage management solution for your SAN, NAS and Network storage.

- LAN Friendly - runs across your existing 10/100 or GigE network without burden
- Enterprise Solution - backs up data no matter where it is, across all your platforms

We don't stop there. We also offer:

- Installation, including all clients and database agents requested
- Premier STORServer training from the top network backup consultants in the world
- Full Solution, Diagnostic Support, and full warranty on all products in the solution
- On-going tune-ups with STORServer Health Check

What you get are features that challenge any storage area network, network attached, or network connected backup, archive and disaster recovery solution available today:

- No more FULL Backups required - because it's always online
- Automated Backup and Restore operations
- Archive and Retrieval of vital records
- Daily Updated Disaster Recovery Plan
- Over 35 different client platforms supported
- Remote laptop and desktop Client Server Solution - byte-level option
- Support for online backup of all popular databases and applications
- Easy to use Web-based and Windows Desktop administration tools
- Pool-based, rather than fixed tape-based or fixed disk technology, STORServer uses any media (Models come with disk, LTO, SDLT and AIT optional and interchangeable)
- Daily Monitoring and Event Notification for the Operator
